Dear Gordon

SEE AND TREAT PROJECT

Angus CHP are redesigning and developing services in the Minor Injuries Units at the moment and as part of the developments it has been agreed to hold a series of Focus Groups to engage with representatives of patients and the public.

I have been asked to identify names from various Clinical Working Groups that I am the Lead for, who may wish to be invited.

I am sure you will appreciate that letters of invitation will require to go out before the end of the month so an early response with any possible contact details of those who wish to be involved would be appreciated as provisional dates are being agreed at the moment as 25th February - afternoon, 4th March - evening and 5th March - afternoon.

Yours sincerely

A handwritten signature in black ink that reads 'Gail M. Smith'. The signature is written in a cursive style and is positioned on a light-colored rectangular background.
